

VHP ITALIEN 2011

Luft- und Raumfahrtindustrie

Company Information	
Name :	ADZ Nagano GmbH, Gesellschaft für Sensortechnik
Representative(s) attending:	
Position:	Mr. Lutz Reinhardt Sales Manager
Address :	Bergener Ring 43
Zip – City :	01458 Ottendorf-Okrilla
Phone :	+49 / 35205 / 59 69 30
Fax :	+49 / 35205 / 59 69 59
Email :	info@adz.de
Website :	www.adz.de
Company profile:	<p>Current development projects:</p> <ul style="list-style-type: none"> • A350 XWP – Hydraulic control system of landing flaps and landing gears • A380/BD500 – Hydraulic control system of landing flaps and landing gears • AW149 – Hydraulic control system of rotor and landing gears • Aircraft engines – Test sets, Electronic fuel management for piston engines
Technical project Information	
Type of business :	Development and Production of Pressure and Temperature Transmitters.
Type of products or services offered:	Development and production with focus on customized solutions in sensing technologies for applications in hydraulics, pneumatics, refrigeration plants and systems for air condition. The main fields of applications are, in addition to aviation industries, such industries like mobile hydraulics on vehicles, braking systems for railway industry and trucks, industrial applications as well as applications in automotive and food industries. Our transmitters are characterized by high robustness, reliability and long term stability. The structure of our company guarantees a high flexibility in development and production. So we are able to react in a fast and flexible manner to special customer requirements.
Quality system certifications:	certified acc. to ISO/TS 16949 and DIN EN 9100
Type of products or services request	We are looking for project partners, first of all between system suppliers, who are interested in a shared development of sensors for their systems. Furthermore we are interested in the extension of our business relationships in the field of measuring and test sets.
Targeted customers (Italy):	<p>System suppliers and end customers working in the fields of hydraulics, pneumatics and air conditioning. Manufacturers of after sales service equipment in these fields. Manufacturers of measurement and test equipment.</p> <p>We have a wide experience in applications like hydraulic control systems for landing flaps, landing gears, rotor control on helicopters etc.</p>
